

## Skills Practice

### Stage 27: Number and Operations in Base Ten

Task 1:

Create 2 numbers that follow these rules:

- 1) Each number must have 6 digits.
- 2) Two digits must both be the number 6.
- 3) One '6' must be 100 times as large as the other '6.'

Number 1: \_\_\_\_\_

Number 2: \_\_\_\_\_

Task 2:

What is the number?

- Rounded to the nearest tenth it is 72.
- Rounded to the nearest hundredth it is 71.96
- Rounded to the nearest thousandth it is 71.958

The number is: \_\_\_\_\_

What is another number that fits these constraints? \_\_\_\_\_

## **Skills Practice**

### Stage 27: Number and Operations in Base Ten

*Task 3:*

Write a division story problem for  $178 \div 12$ .

- Estimate a reasonable answer first.
- Express your answer as a mixed number.

In your solution, decide and show what to do with the remainder.

Show your work with a model or explanations.
